Note. Percents are percent of officers in that component and year that are female.

Source. Military data are provided by the Defense Manpower Data Center (DMDC).

^aOfficer gains reflect an addition to the officer ranks. This addition can reflect a new accession, a movement from another component, or the return of the officer to the same component. The Office of the Secretary of Defense (OSD) definition of an officer gain is a transaction in a database that reflects the addition of an SSN that was not in the previous file.

^bOfficer corps reflects commissioned officers serving as of 30 September 2023.

^cBeginning in FY23, only the most recent accession is counted to avoid including duplicate records.
